

Stagecoach *in Fife*

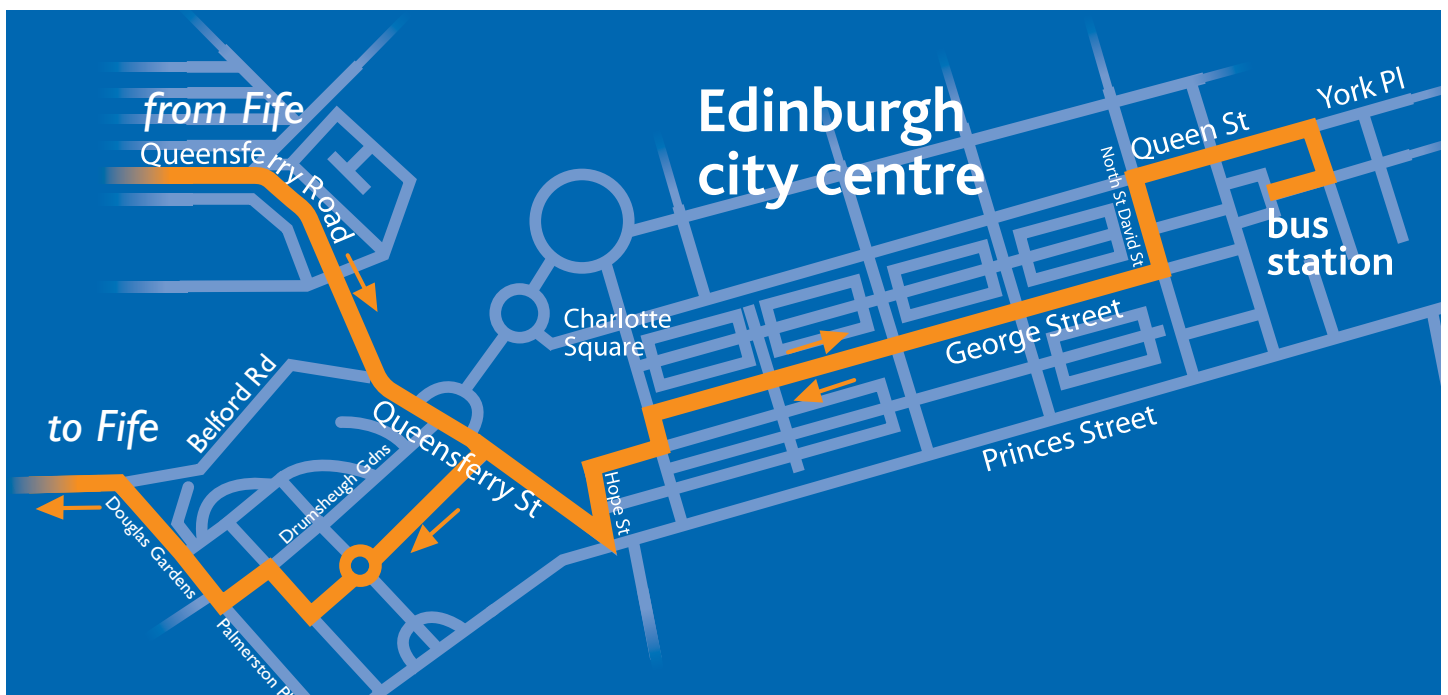

Diversion in Edinburgh

from Monday 9th May 2011

Stagecoach in Fife would like to advise passengers that from the above date, Queensferry Street will fully re-open to traffic. Services will return to their normal routes and stops at the West End.

Also from this date as part of the ongoing gas mains works in the area, Dean Bridge will be closed northbound until the end of July/early August. Services to Fife will divert via Melville Street, Manor Place, Chester Street, Palmerston Place, Douglas Gardens, Belford Road and Queensferry Terrace, resuming normal route on Queensferry Road. The section of route between Drumsheugh Gardens and Stewart's Melville College will not be served in the 'to Fife' direction. A temporary bus stop will be observed on Queensferry Terrace before the roundabout with Queensferry Road. Services from Fife will be unaffected.

We apologise for any inconvenience caused due to these circumstances beyond our control.
